Anton K. Myrberg

Front End Developer & Tech Lead.
+46 70 36 52 90, anton@futurumdigital.se.

Due to a strong interest in web programming, I'm always up to date with the latest of the web's best practices. I easily navigate codebases in React, Remix, Next.js, React Native, TypeScript, Node.js, Angular and Ionic. I'm a team player, an experienced team manager and serious yet easy going. Since I started my career I've always put focus on learning new, exciting things. This year I'm deep-diving into the world of UI and UX Design, combined with animations for the web.

Skills

Working with People · Expert

- Managing Development Teams
- Pair Programming
- Project Management
- Dialogue with Stakeholders
- Agile
- Remote Team Management

React (6 years+) · Expert

- Remix
- TypeScript
- React Native
- XState
- Next.js
- Redux
- Tanstack Query
- Test Driven Development (TDD)

HTML5, CSS3, EcmaScript/JavaScript (10+ years) · Expert

- Semantic HTML
- Sass & Less
- JSON
- Tailwind CSS
- jQuery
- AJAX

Design & Animation · High competence

- Figma
- Framer
- Adobe Creative Suite
- Framer Motion
- CSS Animations
- Wireframing, mockups

Skills, continued

Git (8+ years)   High competence

· Pull Request Dancing
· GitHub
· BitBucket

· Continuous Integration (CI)
· Continuous Deployment (CD)
· Branch, merge, squash, rebase etc

Hybrid App Development iOS & Android (8 years+)   Expert

· Ionic React
· Hybrid Development Android
· Hybrid Development iOS

· React Native
· Firebase Push Notifications
· App Store & Google Play

Node.js & Databases (8+ years)   High competence

· Express.js
· MongoDB
· MySQL

· GraphQL
· REST API
· PostgreSQL

Cloud   Work competence

· Vercel
· AWS
· Azure

· Homemade CDN
· Netlify
· Fly.io

Tooling   Work competence

· Google Analytics
· Socket.io
· Webpack

· Simple Analytics
· Swagger
· Jest

Education

· Linneaus University,
  Web Programming Programme, 2013 - 2015

· Karlstad University,
  Applied Programming Summer Course, 2014 - 2014

· Luleå Technical University, Master of Science,
  Professional Experience Management, 2005 - 2009

Certificates

· ShiftNudge Design, 2023

· Google Certified Mobile Web Specialist, 2019

· MongoDB Certificate M101JS: MongoDB for Node.js Developers, 2014

Selected Clients & Previous Assigments

Tech Lead for Doconomy AB   Q2 2022 - now

Tech Lead for the B2B Development Team. Started the assigment as the Tech Lead for the 2030 Calculator Team. Led the migration of the 2030 codebase from Svelte to Next.js, allowing the organization to hire from a different candidate pool. After migration, handled the release of the new 2030 Product API, 2030 Administration Tool and the 2030 Calculator UI. Coordinated with sales, CTO, CPO and PM to create solutions for complex climate tools.

Lead the iniative of the React-based Doconomy Design System, which lead to a shared internal Design System, shared by all Doconomy Development Teams.

The team changed form due to strategic changes, making me both the Tech Lead and Interim PM of the B2B Development Team. Clients involve Fortune 500s.

Technologies used
React, Node, Next.js, Storybook, Jest, Headless UI, TailwindCSS, Bitbucket Pipelines, Tanstack Query, Vercel, AWS

Selected Clients & Previous Assigments, continued

Architecture and project management for Kids Brand Store AB   Q2 2019 - Q3 2019

Architecture and project management for multi national startup.

Fullstack Developer for "NDA"   Q1 2019 - Q2 2019

Frontend and coordination of five developers. Prototype for customer-facing progressive web app for Mälarenergi's customers.

Technologies used
React, MobX, SASS, PWA, Azure DevOps

Fullstack Developer for TT Konsulttjänst AB   2016 - 2019

About 200k users, one of Sweden's most popular apps in the shopping segment. The app has meant a total digitalization of Restaurangchansen's (owned by TT Konsulttjänst AB) way of doing business, and on top of developing I also worked closely with the CEO to create digitalization strategies.

I built the frontend parts of the hybrid app, iOS and Android, in Ionic Angular with a connected sales tool, custom built in React. The projects spanned 2016 - 2019 in stints based on the yearly budget. The sales tool was a complete e-sales tool for traveling sales men, including sales towards non-profit sport clubs, custom created e-signing, handling of data used by Restaurangchansen's "RC-Appen" and handling of push notifications.

Technologies used
Ionic 3 (Angular), Ngrx, SASS, iOS & Android, React, Redux, PWA

Frontend Developer for Svenska kyrkan   2018 - 2018

Frontend for internal booking system used by communicators and church personell

Technologies used
Bootstrap, HTML5, jQuery
